DR. HOGE GIVES HIS EXPERIENCE IN THE RELIGIOUS PARLIAMENT.

He Draws Lessons For His Afternoon Sermon From the Speeches Heard While in Chicago-Other Church News,

A great concourse was attracted to the Second Presbyterian Church Sunday afternoon to hear what Dr. Hoge had to say with regard to the Parliament of Religious in Chicago. He commenced by giving a graphic picture of the appearwhen filled with four thousand people, around and over whom fluttered the flags of all nations, and where on the rostrum were seen the representatives of all religions, arrayed in the costumes of their ligions, arrayed in the costumes of their native lands. James T Powers and an excellent com pany presented "Walker, London," at the Richmond Theatre last evening. It is a three-act comedy, and is rather above the average, as far as literary merit is con-corned. Powers, as the African explorer was splendid, and the other roles were well sustained.

The story of the play is that a London

barber, resculng a beautiful girl from the Thames, masquerades as an explorer, and for the entire three acts he keeps up the deception, surrounded by the occupants of a house-boat. The scenery is beautiful.

The Theatre will be closed the balance of this week.

Bishop Whittle underwent the painful and delicate operation Saturday after-noon of having one of his eyes removed. The operation, which was performed by Dr. John Dunn, assisted by Dr. John N.

Upshur, was entirely successful, and the Bishop is doing well.

For some time he has suffered with a small ulcer in the eye, which resisted treatment, and gave him pain as well as trouble with his sight.

About two weeks ago, while on his regular rounds of visitation, he caught cold in the diseased eye, and the inflamation involved the other eye also. The condition of the first became so serious that its removal was determined on.

It was accomplished without any unfavorable symptoms supervening. The ulcerous condition of the eye was an irritant to the eczema on the face, from which he has been a great sufferer, and its removal has had a great tendency towards the relief of this trouble. Bishop Whittle has stood the operation

with remarkable fortitude, and he was in quite a cheerful state yesterday. He will probably be able to walk about in a few days, and his physicians think that the removal of the diseased eye will re-suit in improved health and greatiy restored vision.

The beloved bishop will have the sym-

pathy of thousands in his suffering, and they will also rejoice at the successful result of the operation.

COUNSEL TO MEN OF LARGE AFFAIRS.

During such a period of financial disturbance as the present, you find it necessary to concentrate all your talents and energies on the management of your affairs.

You cannot safely delegate the work to another. At this time any one else, no matter what his ability, would be unable to successfully conduct your business, or protect your investments, as well as you can.

But there is a CHANCE that you may at any moment be FORCED thus to turn your affairs over to the manage. ment of another-namely, in the event of your death. Remember that executors often think more about

avoiding risks and protecting themselves than of carrying out the spirit of the testator's views. They generally lack experience in the business they are trying to wind up.

This inexperience and possible lack of interest may cost ten or fifteen per cent. of the value of your estate.

You cannot but recognize the truth of this statement; nevertheless, you can guard against this loss by assuring your life for the amount which in your judgment your executors would waste in winding up your estate. You can easily, by economizing a little in your

living expenses, pay from your income the premium on a policy for \$50,000 or \$100,000, issued by the strongest financial institution of its kind in the world, the Equitable Life Assurance Society of the United States, 120 Broadway, New York.

If you then chance to die, your executor will be INSTANTLY in the possession of \$50,000 or \$100,000 of CASH IN HAND; and ready money will have a FOURFOLD value if DEATH COMES.

On the other hand, if you live, and take your assurance (for example) on the twenty-year Tontine Endowment plan, you will Yourself reap a rich reward on maturity of the policy.

The following is an illustration of one out of many such policies maturing in 1893:

EXAMPLE.

LETTER FROM A POLICY-HOLDER IN THE EQUITABLE.

In response to your request that I should give you for publication the results of Policy No. 81,574, which matured June 2, 1898, I beg to make the following statement: The policy was for \$1,000, issued twenty years ago on the Endowment plan. The amount paid in premiums was \$953.60.

Among other options the following methods of settlement are

now offered: First-Cash surrender value, \$1.597.04; equal to a return of all the premiums paid, with interest exceeding 6 per cent. per annum. Second—A paid-up policy of life assurance for \$3,358.

Third-A life annuity of \$112.58. June 2, 1893. N. B .- The writer of the above letter has applied to the Equitable for a new policy for five times the amount of the original
